BACK-UP POWER

All switches are designed for 8 hour battery back up and all have a fixed standby generator that starts within minutes of a power failure with enough power to power everything in the office including air conditioning.

All DLC's and AFC's are designed with 4 hour battery backup. We also have portable generators that can be moved to the DLC if the power outage goes beyond 4 hours.

REROUTING OF TRAFFIC AROUND DAMAGED FACILITIES

All out state exchanges have common trunks to the Blair Tandem routed over a fiber ring. Blair and Arlington switches are located in the same building as the Blair Tandem. The facilities from Blair to Century Link and the IXC's in Omaha are fiber redundant. All switches also have an alternant route to the Century Link Tandem. Originating traffic would automatically reroute if the Blair Tandem failed but the terminating traffic would need to be rerouted by the carrier.

TRAFFIC SPIKES

Capacity from the DLC's to the switch is designed at an industry standard 4 to 1 ratio. The switches are non-blocking. The trunk capacity to the IXC's is controlled by the IXC. They add or remove trunks depending on the volume of traffic. The trunk capacity to the Century Link tandem is also controlled by Century Link. Most trunk traffic is designed for high busy hour traffic capacity. It would be cost prohibitive to design for non blocking during and emergency situation.

Also, by choosing this option, consumers are usually not charged a deposit.

NTAP is administered by the Nebraska Public Service Commission.

NTAP Eligibility Information

Program Based Eligibility

To qualify for NTAP, subscribers must either have an income that is at or below 135% of the Federal Poverty Guidelines, or the subscriber, one or more of the subscriber's dependents, or the subscriber's household must receive benefits from one of the following assistance programs:

The Blair Telephone Company's Voice NTAP service includes unlimited local minutes-of-use within the toll-free calling area. The Blair Telephone Company's Voice NTAP Plan does not include any free minutes-of-use for toll. Toll is billed at the standard toll rate depending on which interexchange carrier the consumer subscribes to for toll service. As part of the NTAP service, Toll blocking is available to eligible consumers at no cost.

Rates

Subscribers may receive the NTAP credit on any type or grade of local service, including bundled services that are normally offered by The Blair Telephone Company. Advertised rates do not include any applicable taxes or surcharges.

Recertification of NTAP Eligibility

NTAP recipients are required to recertify their eligibility annually. Failure to properly recertify a recipient's continued eligibility for NTAP will result in termination of the NTAP recipient's monthly NTAP discount and de-enrollment from NTAP.

Additional NTAP Program Information

NTAP is limited to one benefit per household, consisting of either wireline or wireless service. A household is defined as an individual or group of individuals who live together at the same address and share income and expenses. NTAP is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.
